About euroloo™

euroloo is a leading nationwide toilet and welfare facility provider. With a successful track record built across more than 20 years, our teams and depots across the UK work to provide exceptional service to our customers. With our own in house service and delivery teams, we're ready to deliver to where you are and we're focused on providing reliable and efficient service operations, covering all sectors.

We care about your hire experience, with dedicated sales and customer support teams on hand to assist our customers and a mission to always innovate and develop how we work.

euroloo is committed to a sustainable, carbon neutral future and with the products and services we offer, our aim is to help all our customers meet their own goals and ambitions for sustainable operations and activity.

ecowelfare

Our **ecowelfare** units set the standard for sustainable site solutions. Powered by high-capacity solar panels and equipped with rainwater harvesting and water recycling systems, they cut down on fossil fuel use and help lower your site's carbon footprint.

Quiet and easy to use, these units run silently, while providing clean, comfortable facilities for your team. Each unit includes online system monitoring, and our fast, hassle-free hire process ensures great support from day one.

With **ecowelfare**, you get reliable welfare facilities while meeting your sustainability and carbon reduction goals.

Make a difference – without it costing the earth.

Spacious & Versatile

Our 24ft unit can seat up to 15 people at a time. Perfect for mid to large size crews!

Easy To Deploy

These units deploy in minutes. You can get onto the job at hand with no set-up

Solar Powered

Covered from top to bottom in solar panels, these units generate their own power (no generator needed)

Proper Flushing Toilets

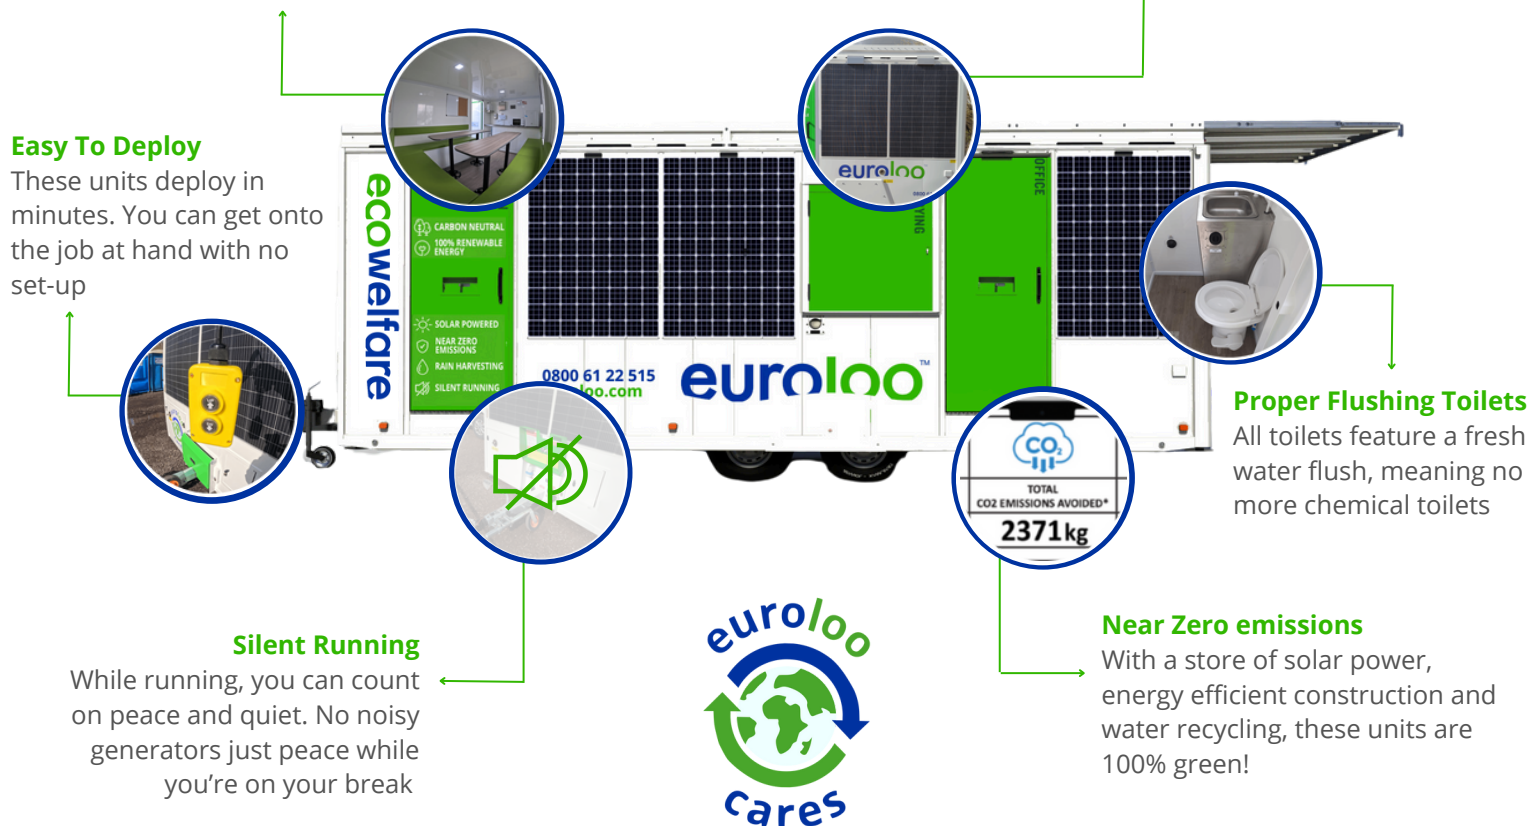

All toilets feature a fresh water flush, meaning no more chemical toilets

Silent Running

While running, you can count on peace and quiet. No noisy generators just peace while you're on your break

Near Zero emissions

With a store of solar power, energy efficient construction and water recycling, these units are 100% green!

sustainable. toilets. welfare.

With **ecowelfare** you will be saving...

Up to **£100** per week by not having to pay for generator fuel and up to **£40** per week on average in generator servicing costs!

Not only this, your **CO2 Emissions reduction** will be around **8894kg** annually

**calculations based on the hire and usage of a 24ft unit on a 3 month project*

Silent Operation

Proper Flushing Toilets

Near-Zero Emissions

100% Renewable Energy Powered

Meets all HSE & CDM standards

Instant hot hand wash water

2 x 5.12kWh lithium batteries

12ft **ecowelfare**

Our 12ft self-contained solar-powered units offer a convenient eco-friendly welfare solution. They feature a fully-equipped canteen that can accommodate up to 7 people, along with proper flushing toilets.

“Environmental Regeneration, specialising in the creation and upkeep of landscapes, partnered with ecowelfare to deliver a cleaner, more sustainable on-site welfare solution. To support its eco-focused operations, the team deployed a 12ft fully solar-powered welfare unit, equipped with a canteen, toilet and drying room. This off-grid solution eliminated the need for diesel, aligning perfectly with the company’s environmental values. The results speak for themselves: over 80 litres of fuel saved, nearly 260kg of CO₂ emissions avoided, and improved team welfare. This partnership reflects Environmental Regeneration’s commitment to low-impact working and responsible site operations across every project.”

16ft **ecowelfare**

Introducing our spacious 16ft welfare units, designed to comfortably accommodate up to 12 people. These self-contained, eco-friendly units are a sustainable solution for your welfare needs, with proper flushing toilets.

“As part of its mission to deliver cleaner energy solutions, Circular Renewables partnered with ecowelfare to enhance site welfare without compromising sustainability goals. They rolled out a fleet of fully solar-powered welfare units across multiple renewable energy sites. Each unit, ranging from 12ft to 24ft, provides essential amenities including canteens, toilets, drying rooms, and office space, all without relying on diesel. This off-grid solution has eliminated fuel costs, saved over 250 litres of diesel and avoided more than 760kg of CO₂ emissions, furthering Circular Renewables’ commitment to low-impact, energy practices.”

24ft ecowelfare

Our impressive 24ft welfare units are specially designed to accommodate up to 15 people comfortably. These self-contained units have a spacious canteen, a separate office room, drying compartment and two proper flushing toilets. These units are a versatile and comprehensive solution for your site welfare needs.

“As part of its ongoing commitment to greener site operations, Breedon Group partnered with ecowelfare to implement a smarter, more sustainable welfare solution. The team deployed a 24ft solar-powered welfare unit, designed to reduce environmental impact while maintaining comfort and functionality on site. Featuring a canteen, office space, and two toilets, the unit offers a fully self-sufficient, fuel-free workspace, removing the need for diesel generators entirely. By switching to solar power, Breedon has significantly cut carbon emissions, reduced running costs and improved on-site sustainability. This innovative step reinforces Breedon’s mission to lower its environmental impact across all projects.”
